## MY OBJECTIVES

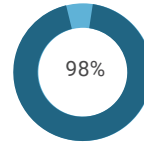

I am looking for opportunities to collaborate and train with companies, agencies, individuals. I want to bring my experience and logical ability where we work to create solutions and optimize our productivity.

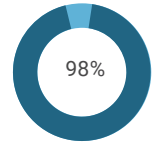

## EXPERTISE

Leadership

Adaptability  
&  
Learning

Communication

## QUALIFICATIONS

- Ease of **learning** and adaptation to new environments
- Priority to **communication** for efficiency and its optimization
- Affinity to **participate** in different roles of a team
- **Leading** effectiveness and actively suggesting methodological strategies
- Experience and comfort with **HTML/CSS/JS/SASS** technologies
- Capacity and preference for the **MEAN Stack** for both the *Back-End* and the *Front-End*, and currently learning **React**.  
(JavaScript, Typescript, NodeJS, MongoDB, MVVM, JWT, UI/UX, ...)
- Capacity and experience for the **LAMP Stack**, with the application of additional technologies: jQuery, Bootstrap, AOS, etc.  
(PHP, Python, Maria DB, Linux, Apache, ...)
- Familiar with design, organization and development software such as **Figma, PS, Android Studio, Unity, Atom, Git, Notion**
- Regular and optimal use of version control tools such as **GitHub** or **Heroku**, either by CLI or by your browser interface
- Natural impulse to participate and carry out personal projects and consequently learn more technologies

### Apps & Demos (Code & Live) • GitHub (Frontend) + Heroku (Backend)

- Mobile Galaga Game – [Star Shooters](#) – Unity/C#
- Login & CRUD system – [LoginSys](#) – MEAN | [Code](#)
- Web Pokédex – [Pokédex](#) – Angular/PokeAPI/SASS | [Code](#)
- Automatic Newspaper – [The Rolling Papers](#) – Angular/NewsAPI | [Code](#)
- Classic To-Do App (CRUD) – [To-Do App](#) – Angular/SASS/TS | [Code](#)
- My Portfolio – [Cristian's Portfolios](#) – Angular/SASS/TS | [Code](#)

## EDUCATION

**Computer Science Degree Student**  
Universidad Nacional de Hurlingham  
(UNAHUR)  
(2020 - Present)

**Bachelor with an orientation in economics  
and administration.**  
Inmaculado Corazón de María  
(2019)

**Native/Advanced Languages**  
Spanish – English  
**Learning**  
German

## PROJECTS & EXPERIENCE

**2019 - 2020**

**Web Master & Client Management • CYMA Solutions**

- I have participated in teams where I have been assigned design and programming tasks in the **LAMP** environment
- I have carried out the maintenance of the website of some clients, mainly with the use of **WordPress**
- I received clients and formed their budgets to secure contracts
- I had the opportunity to carry out some work on my own without a team

**2016 - Present**

**Software Developer • Majin Games**

- I have published mobile applications and games in the Google Play Store, which are monetized with ads and have implemented different technologies and APIs
- I have implemented basic SEO, ASO, and marketing strategies with the use of social networks
- This project has led me to learn technologies that I am passionate about, but do not mention above because they do not relate to my approach to web development:  
(C#, Firebase, C++, .NET, Google Play Games (Leaderboard & User Data), Kotlin)

**2013 - Present**

**Musical/Cinematographic Production & Composition • Majin Games**

- I carry out the hobby of audio production to provide SFX and music to the Apps to be distributed
- I regularly associate with locally known singers in different provinces, and with producers with similar interests
- I enjoy composing in a wide range of musical genres, both classic 80s, as orchestral, as well as modern EDM
- I am a verified artist on the most valuable music platforms, such as Spotify under the stage name of **Fifth Dice**.
